## COMMUNITY PICNIC SPONSORED BY ELKS

The Carbon Lodge No. 195, B.P.O.E., will sponsor a monstrous community picnic, to be held in the Carbon Park on Wednesday afternoon, August 7th. This picnic will be open to everyone in Carbon and surrounding districts and every kiddie present will be given free treats that day. A general booth will be run for the benefit of the grown ups and it is anticipated that a large number of our worthy farmers and citizens will be on hand with their families.

During the afternoon children's sports of all kinds will be run and following these will be baseball and softball games for the children, ladies and gentlemen. It is also the intention of the committee in charge to try and arrange a senior baseball game on this occasion.

In the evening a monster dance will be held in the Elks hall and it is to be hoped that a good turn out will be there, as this will be the only part of the program that there will be any charge made for and from which at least part of the funds can be collected to offset the entire day's expenses.

Further particulars of this free picnic will appear in our next issue.

## 70 CENTS BUSHEL FOR NO. 1 IS WHEAT POOL PAYMENT

Initial payments for the 1930-31 grain crop Tuesday, were set by the Canadian Wheat Pool. Far down from the values set a year ago for the West ern crop, the first payments on all the grain delivered to the pools July 16 and thereafter are as follows:

Wheat: 70 cents per bushel, No. 1 Northern, Fort William.  
Barley: 25 cents per bushel on No. 3 C.W.  
Oats: 30 cents per bushel on No. 2

## BANK OF MONTREAL CROP REPORT

General—Intense heat throughout the Prairie Provinces has caused rapid growth. Crops in Manitoba and Northern Saskatchewan are making satisfactory progress under ideal conditions but parts of Southern Saskatchewan and most areas in Alberta are generally satisfactory, except on low-lying lands. Rain has interfered with haying operations and warm, dry weather is needed. In Ontario conditions continue favourable and crops generally are making good progress. In Maritime Provinces growth generally is satisfactory. In British Columbia the weather has been hot and crops are maturing rapidly. Details follow:

Alberta, Northern area—Showers followed by warm weather have promoted rapid growth and indications are for fair crops. Some hail damage has been reported.

Southeastern area—Conditions are only fair and more rain will be needed shortly.

Western area—Local showers have been beneficial, and growth is rapid, but rain is needed over the whole area.

Saskatchewan, Northern area—Ideal growing weather prevails, with sufficient moisture. Present indications are for average maturity with a good average yield. Hail damage has been in scattered sections only. Coarse grain is now well advanced.

Southern Area—Crops are poor on the stubble and breaking, and fair on the summerfallow. There is sufficient temporary moisture, but the heat is intense and rain would be welcome. There have been scattered hail losses.

Manitoba—All crops continue to

C.W.  
Rye: 30 cents per bushel on No. 2 C.W.  
Flax: \$1.25 per bushel on No. 1 N.W.  
July 15 is cut-off date for the 1929-30 pool, so that all grain delivered now will be credited to the 1930-31 pool.

## TENNIS NOTES

### EXCITING TENNIS MATCH AT CARBON ON SUNDAY LAST

An interesting lawn tennis match was played at Carbon on Sunday between Carbon and Hesketh. The result was a win for Hesketh by four events to three. All the matches were closely contested and the wins were by a narrow margin, several of the matches going to three sets before a win could be registered. With all the players doing so well it is hard to single out special feature matches, but we would mention the game between L. Brown of Hesketh and V. Hawkins of Carbon, where the Hesketh player, being down 5-1 in the second set, pulled up to take the set at 7-5. In the ladies' singles, Miss E. Braisher of Carbon, after losing the first set to Mrs. Hunter of Hesketh, and being down 5-1 in the second, made a spectacular come-back and took the next seven games, to lead at 7-6 and forty love, only needing one more point for set. This she was unable to get and Mrs. Hunter finally took the set at 9-7.

After the match the Carbon Club entertained the visitors to a picnic in the Park, and a most enjoyable time was spent by all.

The following is the result of the various games:

Men's Singles—L. Brown of Hesketh defeated V. Hawkins of Carbon 6-4, 7-5.

N. McClure of Carbon defeated J. Ridgwell of Hesketh 6-4, 6-2.

Ladies' Singles—Mrs. Hunter of Hesketh defeated Miss Braisher of Carbon 6-2, 9-7.

Men's Doubles—L. Brown and Tom Heath of Hesketh defeated L. Poxon and W. Edwards of Carbon 9-7, 6-2. H. Brown and H. Willson of Carbon defeated J. Neilson and R. Reid of Hesketh 6-4, 3-6, 6-3.

Ladies' Doubles—Mrs. Chapman and Mrs. Brown of Hesketh defeated Mrs. Willson and Miss D. Nash of Carbon 6-1, 6-2.

Mixed Doubles—C. H. Nash and Miss Irene Nash of Carbon defeated T. Heath and Mrs. Hunter of Hesketh 8-6, 4-6, 7-5.

make favourable progress. The wheat shows a vigorous uniform stand, and is practically all headed out and the prospects are encouraging. The coarse grains show satisfactory promise. Crops lodged by high winds and the heavy rains are making remarkable recovery.

### FOR SALE—Broilers, 3 to 5 pounds, 25c dressed. 18c live. H. Braden.

The Chronicle office will be closed the first two weeks in August and any person having job printing to be done should have it attended to immediately. We do not want to pass up any stray business, nor do we want any of the business men to use this as an opportunity to have their printing done at some other point.

### PEAK OF TOURIST TRADE NOT REACHED

While the United States tourists spend close to \$300,000,000 annually in Canada, this country's tourist expenditures in the United States are by far the greater, on a per capita basis.

During 1929 Canadian tourists spent \$91,000,000 across the border, a Canadian expenditure of \$9.10 per capita.

The per capita expenditure of the United States in Canada through the tourist activity amounts to only \$2.33 per capita.

It is believed here that the right methods of fostering the tourist traffic to Canada—good roads and more accommodation—would swell the United States per capita expenditures to the same high proportions as the Canadian per capita expenditures in the United States.

If the United States expenditures on tourist activity in Canada reached the Canadian figure of \$9.10 per capita the total value of the trade to Canada would be \$1,137,500,000 annually.

## LETTERS TO THE EDITOR

Editor, The Carbon Chronicle

Dear Sir:

At the Conservative meeting held in Hesketh on July 18th I was amazed at the inconsistency of the speaker on the platform regarding Mr. Bennett's Protective Policy.

Mr. Hanley of Drumheller, the first speaker of the evening, said that protection would solve the unemployment problem of Canada, and raise the farmer from the slough of despondency that he is in today.

The next speaker also emphasized the fact that if Mr. Bennett was returned with his protection policy all the troubles of the nation would be over. If the speaker had stopped at this point he would have been safe. But no; he must go on and take a rap at the Dunning Seasonal Tariff on fruit, and stated that in the eighteen days that the protection tariff had been on fruit, it had cost the consumers of Canada an enormous sum of money, and the producer had not reaped any advantage whatever through this protection. You people who read this, can you imagine the colossal sum it is going to cost the consumers of the country if Mr. Bennett is put in power on the 28th of July with his high Protective Policy, if the above statement is true, as it must be, for it was made on a Conservative platform by a Conservative speaker.

It was proved to the satisfaction of all at the meeting that Mr. Garland is the right man for this Constituency, and that the Progressives, when at Ottawa have quite an influence on the legislature of the Federal House of Commons, which has been proved several times in the last nine years.

Mr. Business man, just reason for a moment. Who is the best man for you in Parliament? The Progressive member, who we have to thank for the trial low freight rates on our coal being shipped to the Eastern Provinces; who also forced the Crows Nest Pass agreement back, thereby giving an extra purchasing power of \$25,000,000 to the farmers of the Prairie Provinces to be spent among you in the last five years; or will you vote for the Conservative whose party has quite a number of members that do not care if your mines work or not, and would rather have seen that \$25,000,000 go to swell the dividends of the railways, to be spent in the East, or Europe, than among the small towns of the West.

Now remember, Mr. Business Man, that upon the success of the farmer mainly depends the success of you, so use common sense and help the man back to parliament who has helped to get better legislation for the masses, which means better times for both town and country. So vote for Mr. Garland and Progress on the 28th of July.

THOS. J. KING

Mr. and Mrs. Wm. Smith have moved into the Neil Cunningham house.

Miss Helen Smith returned Monday night from a week's holiday spent at Bassano.

The Carbon district had a fine rain last week end. Crops are looking better.

Dr. Dawson Graham will hold a public meeting in the Masonic Hall on Saturday night at 8.00 p.m. The speakers will be Mr. Hugh Farthing and Dr. Graham.

## Who Does Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

## Marketing and Distribution

The problem with which industry is confronted today is marketing, declares Donald M. Marvin, economist, in the monthly letter issued by the Royal Bank of Canada. To quote Mr. Marvin:

"Early economic thought had its birth in a philosophy of trade, but this line of thought was rapidly displaced by theories concerning production. In theory, trading operations became a mere adjunct to productive processes, and, except as regards foreign commerce, occupies a very subordinate place in economic literature. The engineering genius of the world has been focussed on methods of manufacture. The last half century witnessed the growth of large scale production and remarkable improvements in productive efficiency, but relatively speaking, distribution has escaped attention. Today this is changing; the problem with which industry is confronted is that of marketing."

While increased attention is being given to the principles and practices of marketing, data relating to this field are far less comprehensive than for other branches of human activity. Population, production, prices, export and import, and many other kinds of statistics are available in abundance and in a high degree of excellence. Official statistics relating to agriculture, mining and manufacturing have been collected for many years. The number of persons engaged in these activities is known, together with varied information concerning the quantity and quality of their products. There are no comprehensive statistics of distribution and it is in this field that the need for further information is undoubtedly most acute.

The relative merits of the chain store, department store, mail order house and the local independent dealer have long been the subject of controversy and speculation. The fear that the independent merchant is being crushed to the wall by an over-powering competition has frequently been expressed. What the actual situation may be, not only as regards retail trade as a whole but as regards its different branches, can only be discovered when adequate information concerning distribution is available.

Urgent necessity has moved many private concerns to seek information in this field, but private enterprise has gone about as far as it can go in providing this information. Unfortunately, the results have been incomplete and only serve to emphasize the necessity of a comprehensive statistical study of the subject. The first requisite for such an analysis of distribution is a census of all manufacturing, wholesale and retail establishments which are engaged in distribution. Such a survey will be undertaken by the Dominion Bureau of Statistics in connection with the regular decennial census in 1931. The schedules will contain questions relating to the kind of business, number of employees, salaries and wages paid, inventories, expense of doing business and capital invested.

This census will be of great benefit to all those who wish to make an intelligent study of the problem relating to marketing in Canada. It will supply the basic statistical material required, and provide a comprehensive picture of the various outlets for an extensive list of commodities and groups of commodities. The relative proportion of cash and credit sales will be given. Presentation of the data in the form of averages will furnish a basis with which individual organizations may judge their own results. A picture of consumer demand in each section of the country will be presented, together with information showing the various types of outlets through which they are now reached. Such data will be invaluable in the preparation of advertising and sales campaigns. While the advantages of this type of information to manufacturers and distributors is obvious, the fact that the consumer will benefit through the economies which should result, should not be overlooked.

Studies relative to the cost of living will be assisted by data showing the percentages of consumers' purchases of food, clothing, fuel, and other groups of products. Special methods of distribution adapted to certain districts will be shown, and additional light will be thrown on the movement of commodities between the various provinces of Canada. The compilation of these statistics and others of a like character should produce material of substantial benefit to industry and trade.

The success of this survey will depend very largely on the wholehearted co-operation of those who supply the individual returns. The need for the information has become particularly urgent as advances in methods of production have pressed the problems of distribution more and more upon the attention of business leaders. With the added information made available, a real analysis of the problems of distribution will be possible and more effective measures devised for their solution.

### Saskatchewan Power

Seven Hundred and Fifty-Eight Miles  
Of High Tension Lines To Be  
Built This Year

The Saskatchewan Power Commission is calling for tenders for the building of 758 miles of high tension lines to make available electric energy for the use of some 58 towns and villages throughout the province, so that the lines can be completed and in operation by the end of

October or beginning of November. The power will be supplied by plants located at Saskatoon, Prince Albert and Moose Jaw.

Miller's Worm Powders seldom fail. They immediately attack the worms and expel them from the system. They are complete in themselves, not only as a worm destroyer, but as a highly beneficial medicine for children, correcting weak digestion and restoring the debilitated system to healthfulness, without which the growth of the child will be retarded and its constitution weakened.

### Vulnerable To Air Attack

Naval Vessels Of Every Type Are At  
a Disadvantage

Improvements in air warfare are much more important than the public has been permitted to know. General William Mitchell was a little ahead of the times when he asserted that battleships had been made obsolete by aircraft developments. Nevertheless, naval vessels of every type are vulnerable to air attack. France's superiority to Great Britain in aircraft is so great that the British Navy, whatever its type of vessels, is at a disadvantage.

### Wheat Acreage Less

Decrease In Acreage As Compared  
With Last Year, Is About 3 Per  
Cent.

Total estimated areas sown to wheat in Canada for the 1930 season is 24,583,300 acres, as compared with 25,255,002 acres finally reported for 1929, according to the weekly crop report recently issued by the Dominion Bureau of Statistics. This is a decrease of 671,702 acres, or about 3 per cent.

The area of fall wheat to be harvested is estimated at 636,000 acres as compared with 834,284 acres in 1929, a decrease of 197,984 acres, or 24 per cent.

Spring wheat occupies 23,947,000 acres, as against 24,420,718 acres in 1929, a decrease of 473,718 acres, or about 2 per cent.

Cereal crops show increases, according to the report: oats from 12,479,477 acres to 12,515,000 acres; barley, from 5,925,542 acres to 6,050,000 acres; rye from 991,944 acres to 1,092,200 acres. Fall rye occupies 765,400 acres as compared with 664,193 acres in 1929 and, spring rye 326,800 acres as against 327,751 acres last year.

Flaxseed shows an area of 451,500 acres as compared with 382,359 acres in 1929.

The area planted to potatoes is estimated at 557,000 acres, as compared with 543,727 acres, an increase of 2 per cent.

Persian Balm invests every woman with subtle charm. Delicately fragrant. Cooling and healing. Disperses all roughness or chafing. Makes skin delightfully soft-textured. Every woman should use this peerless toilet requisite. Daintiness—beauty—refinement—Persian Balm achieves these in every instance. Softens and whitens the hands. Promotes clear and youthful loveliness. All women who care for additional charm, unhesitatingly choose Persian Balm.

### Icebound Ships Are Freed

Held In Ice Since Last September  
Are Finally Liberated

The icy embrace of the Arctic Ocean has at last released its grip upon the American fur trading ship "Nanuk" and the Soviet steamer "Stavropol" held icebound in Siberia since last September.

The "Nanuk" was freed recently when the packed ice moved off-shore while a little later the ice broke up in the bay, freeing the "Stavropol."

It was to the "Nanuk" that Carl Ben Eielson and Earl Borland were flying from Teller, Alaska, last November when their plane crashed near North Cape, killing both of them.

Wretched From Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dissipates the cloud by removing the cause. It does relieve. It does restore the sufferer to normal bodily trim and normal happiness.

### Canadian Destroyer Launched

Destroyer "Saguenay" Is Launched At  
Southampton, England

The new Canadian destroyer "Saguenay" was launched at Southampton, England, from the Thornycroft yards recently, in the presence of a large and interested crowd. Madame Desbarats, wife of G. J. Desbarats, Canadian Deputy Minister of National Defence, performed the christening ceremony.

A sister vessel, the "Skeena," is to be launched in September. The two destroyers are of special design for use in Canadian waters. They are of 1,330 tons displacement, with a length of 310 feet and a speed of 35 knots.

The "Skeena" and "Saguenay" will replace two destroyers now on loan to Canada for patrol purposes, etc., from the royal navy.

A Power Of Its Own.—Dr. Thomas' Electric Oil has a subtle power of its own. All who have used it know this and keep it by them as the most valuable liniment available. Its uses are innumerable and for many years it has been prized as the leading liniment for man and beast.

### Canada's Forests

The forests of Canada are, in the aggregate, the second most important natural resource, being exceeded in actual value of products by agriculture alone.

Minard's Liniment checks Colds at once.

## Don't Gamble With Health

We all know health demands absolute inner cleanliness. But what we often don't realize is the risk we take when we use harsh, gripping purgatives that create a strained, unnatural condition.

ENO is pleasant, gentle, safe and sure.

A daily dash of ENO'S "Fruit Salt" in a glass of water, morning or night, tones up and sweetens the entire system. Acid stomach, fatigue, biliousness, quickly disappear.

**ENO'S**  
**"FRUIT SALT"**

### British Naval Estimates

Additional Estimates Call For Ex-  
penditure Of About \$1,000,000

The British admiralty has published additional estimates for naval construction for the current financial year, in which £208,200 (about \$1,000,000), is asked. The amount will be used for construction, allowed Great Britain under the London treaty.

Of the supplementary estimate, £183,600 is required to meet costs to submarines this fiscal year on three submarines of the 1929 program, construction of which had been deferred pending conclusion of the naval treaty.

The balance of \$24,000 will be devoted to the new construction program for 1930.

### German Aircraft For Canada

Representative Of the Junkers Air-  
craft Corporation Visits  
Dominion

German aircraft builders are well aware of the potential market for machines in Canada, and the Junkers Aircraft Corporation, of Dessau, even anticipates assembling certain of its various types in the Dominion. One of the company's representatives is now in Montreal to investigate the situation, and will use one of the Junkers monoplanes for demonstration purposes. It is expected that he will remain several months to discuss conditions and prospects with leaders in aviation.

Farmer:—"How do you like the goat's milk?"

City Chap:—"Sorta tastes of the tin, don't you think?"

### His Sight Restored

Blinded In Right Eye, Sight Is Re-  
gained In Peculiar Manner

Totally blind in his right eye for 33 years, Stephen McCormack, of Sydney, Australia, has had his eyesight restored by an accidental finger poke in the eye.

When a piece of stone thrown up by a horse's hoof robbed him of the sight of his right eye, specialists were baffled.

Thirty-three years later McCormack was exercising with a medicine ball when a companion accidentally poked a finger in his blind eye. He was seized with excruciating pains in the head and suddenly his eyesight returned.

If Mr. Ford is going to save an old-time gentleman for his museum he'll have to be quick about it.

Minard's Liniment for all Strains.

Germany's foreign trade continues near the record mark.

**NEGLECT WOMEN IN  
CHOOSING CANDIDATES**

Women have enjoyed the franchise  
in Dominion affairs since 1917, though  
it was not until 1921 that the unre-  
stricted franchise was given them.  
Still that is eleven years ago.

Add to that fact another, which is  
that women represent some 56 per  
cent of the voting strength of Canada  
at the polls on July 28.

Then consider that in all the 245  
electoral divisions of Canada not a  
woman has been given a nomination  
by either of the chief parties in a  
"safe seat."

Miss McPhail, who has sat in the  
house since 1921, is Progressive and  
even she is up against an uncertain  
three-cornered fight.

Half the seats in Canada are reason-  
ably safe for one party or the other.  
That is, nomination is about tant-  
amount to election. Both parties are  
pleading strongly for the votes of wo-  
men, but obviously there has been no  
real concern on the part of the con-  
stituency organizations to see them  
in Parliament.

**THE CITIZEN'S DUTY**

There will be an election in Canada  
on July 28th. At that election the  
question of who shall govern and ad-  
minister the affairs of the people of  
Canada will be decided. The election  
therefore, has a vital bearing upon  
the life of every one of us. Matters  
of taxation, the development of the  
country, the providing of work for our  
people, the giving of opportunity to  
our sons and daughters, the maintain-  
ing of harmony within our borders  
and of the closest relations with the  
Motherland and the rest of the Em-  
pire, tariff matters, and many other  
vital questions come within the pur-

view of the Dominion Parliament.  
This all being so, it is imperative that  
every one of us claiming to be a good  
and true Canadian shall approach this  
"Grand Inquest of the Nation" with  
a deep sense of responsibility. It is  
not sufficient discharge of duty on  
our part to merely look upon a gen-  
eral election as a chance to get our  
party in and keep the other party out.

Canada is a young country, a for-  
ward looking country. It cannot be  
held in the grip of yesterday. It is  
like the embryo chicken in the shell.  
To stay in the shell means that the  
chicken will go rotten and die. The  
bursting of the shell sets the seal on  
life. We men and women of Canada  
must always be looking ahead and  
stop imitating Lot's wife who looked  
behind and got preserved in salt for  
her pains. For these reasons, we must  
meet the opportunity of the coming  
elections with seriousness and sincer-

ity, not with the lightheartedness of  
joy-wagoners nor the insincerities of  
the practical politicians. The prob-  
lems of our country's administration  
should be considered and studied. The  
best policies for the welfare of Can-  
ada, and the manner in which we Can-  
adians can make our best contribu-  
tion to the life of the world in which  
we live, these should be the concern  
rather than the flapping of speak-  
ers on the hustings or the pull of in-  
herited party leanings.

Our votes must be delivered for  
Canada, to ensure its best develop-  
ment within the Empire; and for ef-  
ficient administration of the national  
heritage. We should study the party  
platforms and satisfy ourselves as to  
the best policy for the country, keep-  
ing in mind the fact that this is a  
young country and a growing one. If  
we give our votes to men of character,  
ability and honesty, and support par-

**New Post In C.P.R. Telegraphs**

Growth of the Canadian Pacific Telegraphs and pressure of business  
have brought about the appointment of an assistant general  
manager, a new position, creation of which was made effective this  
month. The new assistant general managership goes to W. D. Neil  
who was assistant manager western lines, stationed at Winnipeg, No. 4  
of illustration. Other appointments resulting from this are: No. 3,  
W. M. Thompson, superintendent, Ontario Division, Toronto, to be  
assistant manager, western lines, Winnipeg; No. 1, H. S. Ingram,  
superintendent, eastern division, Montreal, to be superintendent,  
Ontario division, Toronto; and No. 2, W. S. Emery, chief operator,  
Montreal to be superintendent, eastern division, Montreal.

## The Weight Test Shows Gum-Dipped Cords are Stronger-Tougher

HERE is a test which easily proves the  
value of Gum-Dipping---the extra  
patented Firestone process of saturating  
and insulating every fibre of every cord in  
a Firestone tire with rubber to eliminate  
internal heat and friction---the greatest  
enemy to tire life.

A two-ounce weight is suspended on the  
end of one strand of a cord (a) taken from  
an ordinary tire. The strand breaks in 15  
seconds. A similar weight is suspended on  
a Gum-Dipped strand (b) taken from a  
Firestone tire---it remains unbroken for  
45 seconds---three times as long!

Let your nearest Firestone dealer equip  
your car with a set of these stronger,  
tougher, more dependable tires that hold

ties whose programmes are in our  
judgement likely to be helpful to the  
country; then we shall not go far  
astray. Somehow or other, the best  
laid schemes of crooked politicians go  
astray and there is a divinity that  
shades the end of the countries and  
peoples. No party can steal Canada;  
none give it all away. Let each of us  
do our part unselfishly, without par-  
tisanism, without fear or favor, and  
the general elections will prove a new  
baptism of power for Canada.

"Does a man know how to handle a  
baby?" asks a writer. It depends on  
how old she is.

"Freak fashions don't last long," I  
read. A short life and a gay one.

A money lender has written a play.  
He is said to have maintained the in-  
terest to the end.

"Hello" girls at some of our tele-  
phone exchanges are not allowed to  
wear jewellery. Yet they are always  
receiving ear-rings.

Most of us have given up hopes of  
finding a diamond in the rough, says  
a writer. Quite so. Most of us would  
be content to find a new and unmark-  
ed golf ball there instead.

## HOUSE OF LORDS HAS APPROVED RESOURCES ACT

London, Eng.—The British North America Bill, an amendment to the British North America Act embodying the agreements entered into between the Canadian government and the provinces of Manitoba, Saskatchewan and Alberta, for the return of the natural resources to those provinces, as well as the agreement for the return of certain crown lands to British Columbia, passed through all stages of the House of Lords without opposition.

The British Government is hastening passage of the bill in view of the celebration of the 60th anniversary of Manitoba's entry into confederation on July 15 next.

In moving passage of the bill, Lord Parmoor, Lord President of the council, explained the bill was merely intended to place the younger provinces of Canada on the same footing as the older ones.

Lord Parmoor said he wished to convey the government's very best wishes to the Province of Manitoba on the forthcoming happy anniversary, expressing the hope that Manitoba would have continued prosperity.

Winnipeg, Man.—Proclamation of a public holiday in Manitoba, July 15, will be made shortly by an order-in-council by the provincial government. The day marks the celebration of the 60th anniversary of Manitoba's entry into Confederation, as well as the date of return of natural resources to the province.

## Canadians Given U.S. Citizenship

### District Court Of Appeal Reverses Decision Of Lower Court

New York.—Douglas Clyde MacIntosh, theology professor at Yale, and Marie Averill Bland, Canadian world war nurse, both of whom refused to take the oath to bear arms in defense of the United States, won a reversal in the U.S. district court of appeal of the decision of the lower courts which denied them citizenship.

Dr. MacIntosh, applying for citizenship in the federal district court in Connecticut, refused to make the oath because, he said, he would not bear arms if he believed the war to be for an unjust cause.

Miss Bland, who cared for shell-shocked soldiers in France, declared that under no circumstances, would she bear arms in any war. She said she could not do so because she did not believe it would be consistent with Christianity. Miss Bland, the daughter of a Canadian Episcopal clergyman, now lives in New York.

### Tenders Received

Ottawa, Ont.—Tenders have been received for the construction of additions to the government elevators at Moose Jaw and Saskatoon. The names of the successful tenderers for the contracts will not be made public by the Department of Trade and Commerce until an order-in-council ratifying the awards has been passed.

### Parachute Jumper Claims Record

Saskatoon. — Charles Collins, of Aurora, Ill., claimed a new world's record for a low parachute drop, when he made a successful landing from an altitude of 800 feet during the Saskatoon air meet. Collins also claimed the previous record of 900 feet.

### French Consular Agent

Saskatoon, Sask. — Dr. J. P. Desrosiers, Saskatoon physician, has received official notification from the Department of External Affairs, of the Republic of France, appointing him consular agent of that country for Northern Saskatchewan.

### Crowd At Air Circus

Saskatoon, Sask. — Birdmen of Moose Jaw Aero Club swept the sky of prizes when they annexed all four first awards in the Dominion Day air circus staged by the Saskatoon Aero Club. It is estimated that 20,000 people witnessed the show.

W. N. U. 1845

## Diamond Jubilee Celebration

### Great Interest Shown In Event To Be Held In Manitoba on July 15

Winnipeg, Man.—One of the most interesting features of the Diamond Jubilee celebrations to be held throughout Manitoba on July 15, will be the social re-unions among the early settlers. There will be general recognition of the fact that this province would never have amounted to much if it had not been for the efforts of the men and women who came first. Appropriately enough these men and women, or at least those of them who are taking part in the celebrations, will "come first" in public esteem. They will be honored according to their merit, which means that everyone will be a witness to their achievements.

Some of the towns and villages are making a feature of the "home-coming" idea, and there is much to be said for that phase of the demonstration. If all the Manitoba people who left to make their homes in other parts of the world were to come back for the "doings" on July 15, a new and brighter chapter in our history would be written. As many as do come back will arouse enthusiasm of a special sort. Manitoba men and women carry with them wherever they go the distinct stamp of their satisfactory experiences in the province, and their welcome back will include more than the usual flavor of that western hospitality which is a theme for poets and writers. In addition to the rejoicing over our material advancement there will be the whole-souled gratification at meeting once more those who were largely responsible for that advancement.

It is a moot question whether the men and women of today have the same "stuff" that was apparent in the pioneers. A well-known western politician whose name is almost a household word in thousands of homes on the prairies, uses an intense brand of emphasis—his long suit—in declaring that this age is soft and spineless. He points out how many and how long were the struggles of the early settlers, and there is no doubt that he knows what he is talking about, for he was one of them. The debate will not be decided this year; discussion is likely to be carried on until the "discussers" run out of material. A diplomatic judgment on the matter would admit that there was a great deal to be said on both sides. The men and women of the 60's and 70's—the real pioneers—undoubtedly faced and overcame great hardships. Their resources, except in determination and intelligent application, were few, while their difficulties and disappointments were numerous. Their spirit carried them through and helped them to establish a new civilization on the banks of the Red River.

## Kingsford-Smith Honored

### Given Rank Of Wing Commander By Australian Government

Canberra, Australia. — Announcement has been made in the House of Representatives that Squadron Leader Kingsford-Smith had been promoted to the rank of wing commander in recognition of his westward trans-Atlantic flight.

Premier Sculling said that the government was anxious to give him some greater honor to mark his achievement, but that the conferring of titles clashed with Labor policies.

### Announce Promotion

Ottawa.—Promotion of Lieut.-Col. W. G. MacFarlane, V.D., to the rank of colonel, to command the Fifth Mounted Brigade, of Calgary, Alberta, was announced recently at the Department of National Defence. He succeeds Col. H. C. A. Hervey, V.C.M.D., who has been transferred to the reserve of officers.

### Discuss Indian Situation

London, Eng.—Leaders of all British political parties conferred recently on the the situation in India. It is understood they were mainly concerned with preliminary arrangements for the Indian Conference, in London, next October. No statement was issued.

### Train Wreck In Russia

Moscow, Russia.—Twenty-two persons were killed and 28 injured in the terrific smashup of a train near Leningrad. The accident followed the switching of a passenger train onto the wrong track.

## CIVIL SERVICE COMMISSIONER

Mrs. F. B. Reilly, who has been appointed to the Saskatchewan Civil Service Commission, is the first woman in Canada to hold such a position. Mrs. Reilly has taken an active part in western public affairs for many years.

## Air Service Discussed

### British Minister Urges Dominions To Develop Civil Aviation

London, Eng.—The office of the secretary of state for the colonies was one of the busiest spots in London recently, with colonist representatives and officials of the department gathered to hear and discuss the views of Lord Thomson, secretary of state for air.

Dealing with the subject of civil aviation, Lord Thomson urged the colonies to develop light aeroplane clubs and also advocated the establishment of aerodromes under the control of the governments.

Frederick Montague, under-secretary for air, emphasized the importance of recognizing the West Indies as a link between Canada and South America. If there was a possibility of starting a service between Canada and the West Indies it would be an important part of the direct route to South America.

## Start Thirty-Five Day Tour

### Treaty Money Carried To Northern Indians By Plane

Ottawa, Ont.—Carrying \$25,000 in treaty money to the Indians of the far north, two cabin monoplanes, piloted by officers of the Department of National Defence, took off July 2, from Rockline Aerodrome. The planes will take H. N. Awrey, of the Department of Indian Affairs and W. S. Cain, Deputy Minister of the Ontario Department of Lands and Forests, on a 35-day tour of the North to carry out their duties as Dominion and Provincial Commissioners of Indian treaty number 9.

### School Board Probe

Vancouver, B.C.—Charges that the city had suffered a loss of \$20,000 through short deliveries of supplies to the school board, and that coal and coke paid for by the board had been delivered to an employee's home were made at a meeting of the select committee of the city council investigating the affairs of the school board. Complete denial of the charges was made by those charged with benefiting from them.

## New Canadian National Steamer

Above is shown S.S. Prince Henry, the latest acquisition to the Canadian National fleet on the Pacific Coast. S.S. Prince Henry, which has arrived at Vancouver, is a tribute to the shipbuilding art of British yards. The vessel is 384 feet in length and fitted in the most modern way. The passenger accommodation, designed for the Pacific Coast tourist traffic, is ultra modern with rooms for 334 first class and 70 second class passengers. The vessel will have a Board of Trade license to carry 1500 day passengers. S.S. Prince Henry is the first of three new ships which will start service this summer. She will ply between Vancouver and Skagway during the summer months, while her sister ships S.S. Prince Robert and S.S. Prince David will inaugurate a tri-city run between Vancouver, Victoria and Seattle.

## Saskatchewan's Coal Production Higher

### But All Canadian Output This Year Shows Decrease

Ottawa, Ont.—Coal mined in Canada during the first quarter of 1930 amounted to 3,971,808 tons, a decrease of 14 per cent. from the output of 4,622,728 tons for the first three months in 1929. Compared with the first quarter five-year average, there was a decrease of approximately two per cent. during the period under review. Bituminous coal produced during January, February, and March, totalled 2,704,147 tons, sub-bituminous 162,612 tons, and lignite 1,105,049 tons. Saskatchewan was the only province to record an increase in output over the first quarter of last year. Figures were published at the Dominion Bureau of Statistics.

Alberta's output of 1,639,324 tons was 41 per cent. of the total Canadian production and recorded a decrease of 9.5 per cent. from the first quarter five-year average. Nova Scotia's total of 1,513,415 tons and Saskatchewan's total of 174,531 tons were respectively, 11 per cent. and 17 per cent. higher than the quarterly five-year average. British Columbia mines produced 581,880 tons, a decrease of 14 per cent. from the 1925-1929 first-quarter average. New Brunswick's production was slightly higher than the five-year average.

## New Ruling Is Welcomed

### Bonded Grain In United States May Be Held Over For One Year

New York.—The port of New York authorities recently pointed out that "a serious threat to the grain commerce" of the port of New York has been removed by a new administrative provision in the tariff law permitting Canadian grain to remain in transit one year before exportation.

General concern was manifested by port officials and the grain trade over a ruling in November by the commissioner of customs requiring railroads to dispose of all bonded grain in transit within ninety days after receipt.

Enforcement of this decision, it was felt, would have been ruinous to the grain trade and an accumulation of bonded grain would have been dumped upon a market with no export demand. A committee representing the port authority, the produce exchange, trunk line railroads, elevator interests and others, protested to Washington and following conferences with treasury officials enforcement of the ruling was held in abeyance pending legislative action.

## Valuable Discovery

### Flin Flon Lake Bed Said To Be Rich With Gold

The Pas, Man.—Copper mineralization carrying high values of gold has been found on the bed of Flin Flon Lake, recently drained, according to a statement issued by R. E. Phelan, vice-president of the Hudson Bay Mining and Smelting Company. Extent of the mineralization is not known, it is stated, but exploration work is going ahead.

No definite date has been set for start of production at the mine, it was announced.

## NAVAL TREATY IS CRITICIZED BY EARL BEATTY

London, Eng.—The navy's own viewpoint of London's part in the recent naval conference was communicated by the admiral of the fleet, Earl Beatty, and Lord Jellicoe, wartime sea lord, to the House of Lords in vigorous attacks upon the treaty conclusions.

Earl Beatty, often recognized as Great Britain's most prominent naval figure, assailed the treaty, declaring Great Britain the only nation that made any reduction of disarmament and that the reduction made was so great as to render her impotent and incapable of maintaining control over the various states of her farflung empire.

They had overlooked the possibility of a necessity for sending warships—possibly a fleet—to India, said the Earl.

Earl Beatty said the London Naval Treaty had resulted in an increase of armament for other countries. The United States increase being 233,000 tons, Japan's 10 per cent. of her strength and France being left without any restriction whatever.

France, the speaker said, already had built three 10,000 ton cruisers, is building three more and has authorized ten others, while Italy had built 2, is building 4 and has authorized one.

Admiral Beatty severely criticized the Admiralty for formulating a naval policy that did not take into consideration the possibility, however remote, of a naval attack on the part of the United States.

## Dates For Musical Festivals Next Year

### So Arranged That Same Judges Will Officiate At Each

Edmonton, Alberta. — Dates for musical festivals in the west in 1931 were arranged at the annual conference of the Western Canada Musical Festivals Association, held in Edmonton. Delegates were present from all parts of western Canada. George Mathieson, of Winnipeg, presided.

Dates for the 1931 festivals are: Manitoba, at Winnipeg, April 20 to May 2; Victoria, May 5 to May 9; Vancouver, May 12 to May 23; Alberta, at Lethbridge, May 25 to May 30, and Saskatchewan, June 1 to June 6.

These dates have been arranged to allow the same judges to officiate at each of the festivals.

Adjudicators appointed were: H. S. Robertson, of Glasgow, Herbert Samuels and H. Plunkett-Green, of London.

## Airplane Crash

### Saskatoon Instructor Pilot Narrowly Escapes Death In Accident At Prince Albert

Prince Albert.—D. W. Moir, Saskatoon instructor pilot, narrowly escaped death here when a Moth plane crashed on the exhibition grounds while being demonstrated to directors of the local light aeroplanes club.

Moir was stunting at a low elevation before about 50 persons, and in zooming towards the ground, the tip of the right wing hit the earth and sent the machine plowing up the field at terrific speed. After swerving uncertainly for about 75 feet, the plane turned to the right suddenly and nosed into the ground, throwing the pilot clear.

The impact was heard for a number of blocks, and the plane was badly wrecked. Moir sustained only an ugly gash over the left eye as the souvenir of his miraculous escape from death.

### Will Recover Bodies

Brockville, Ont.—As the representative of the Minister of Public Works and the Dominion Government, Captain T. D. Caldwell visited the homes of Brockville men who lost their lives in the "J. B. King" drill boat disaster, assuring relatives that the government would do everything humanly possible to bring about recovery of the bodies of the 28 men still missing.

### CHAPTER XX.—Continued.

"It does," Grandma agreed.

"I wouldn't have believed Sarah could write two lines, to say nothing of six pages, without mentioning Jimmy. It come over me, Grandma, to wonder if maybe he's got into some trouble."

"Trouble!" echoed Grandma in amazement. "What on earth are you driving at, Lizzie Baker?"

Miss Lizzie shook her head dubiously.

"Jim's a country boy, Grandma Davis. He's been brought up secluded, you might say. And they ain't so very far from Hollywood, which is a wicked place, full of vampires and divorces. If you read the papers as carefully as I do, Grandma, you'd know that Jim is liable to meet temptation."

"And liable to overcome it, if he does," snorted the old lady with indignation. "Don't you get to romancing about Jim, and telling your inventions to every one that comes along. Such stories grow faster'n fireweed on a burned wood lot. Here comes Ezra Bascomb with the mail. You needn't stir, Lizzie; the doctor's getting it. Well," as the young man came inside, "were there any letters, or just that catalogue?"

The doctor greeted Miss Lizzie gallantly, and responded: "There's one for Charmian. I'll take it along and leave it at the school."

From behind the caller's broad back he winked at Grandma, and she asked: "Is it a thick one, Doctor?"

"It took two stamps to bring it," he replied.

"Who's it from?" put in Miss Lizzie. "It seems like an awful extravagance for a person to use two stamps unless it's a matter of life and death. Who can be writing Charmian such a long letter, I'd like to ask?"

The doctor laughed and answered: "Then you must ask Charmian. There's a heavy penalty for tampering with the U.S.M. I'll have a look at the furnace, Grandma, and then be off. If any messages come in just call up Doctor Howe. I'll stop there on my way back."

"I suppose I'd better go," remarked Miss Lizzie, rising. "I left some apples in the oven, and like as not they're burned to cinders. I wish the doctor and Charmian would get married."

## PAINS

No matter how severe, you can always have immediate relief:

Aspirin always stops pain quickly. It does it without any ill effects. Harmless to the heart; harmless to anybody. But it always brings relief. Why suffer?

**ASPIRIN**

TRADE MARK REG.

W. N. U. 1947

ried, Grandma. It's such a comfort to have a man to tend the furnace. I donno how he can help bein' sweet on her, either, livin' right here and seein' her every day. Do you think there's hope?"

"We're told that while there's life there's hope, Lizzie," responded Grandma with a chuckle, "but I haven't an idea how Charmian would take to your suggestion."

Miss Lizzie sighed, wound the scarf about her neck three times, and fastened the moth-eaten fur above it.

"Girls have changed," she said. "It's this younger generation stuff you read about. In my day, Grandma, a girl would have been considered nothing short of a fool to turn down a fine young man like Doctor Carter—and Charmian's no fool."

"You're right," admitted Grandma, "my girl's no fool," then added to herself as she watched her caller waddle across the street, "and so far's I know, she hasn't turned him down!"

### CHAPTER XXI.

Charmian was buttoning the last small Wickfielder into his coat when the schoolhouse door opened to admit John Carter. The girl looked up with a smile as she finished her task, and the doctor, pulling off his gloves, went to the stove to warm his hands. Charmian sped her pupil on his way, and said, as she closed the door:

"I suppose my chariot awaits me. You're awfully good to me, John. I'm tired today, and thankful to escape the walk."

"So you really admit you're tired? I'm surprised—after—"

She laughed, and interrupted: "I'm sorry I snapped at you last night when you were good enough to inquire for my health. I'm all right, truly; but I've been worried about something. That's why I blew up the way I did. I have a beastly temper."

John Carter smiled.

"Will this ally some of that worry?"

He produced Jim's letter and held it out, while Charmian, her eyes detecting the familiar penmanship, drew a relieved breath and the color flamed gloriously in her cheeks.

"When did it come?"

The question was tremulous because she seemed to feel the doctor's eyes boring into her head, in an effort to read the thoughts therein.

"Ezra left it as I was starting. I'm going to South Wickfield for a call. Perhaps you'd rather stay here till I get back and read your missive in peace—I see it's lengthy—or you can peruse it while I see my patient. As a physician, not as a selfish human being (though you might think so), I prescribe the ride."

Charmian hesitated. She longed to read Jim's letter in the solitude of the deserted schoolroom; but on the other hand she needed the fresh air, and since John had been kind enough to stop for her, it seemed discourteous not to accompany him.

"Is it still frightfully cold?" she questioned, with a glance at her old ulster. A fresh leak in the back hall plus an extra ton of coal, had made the new coat impossible at Christmas time.

"I've got a wrap for you outside. I'll bring it in and warm it."

He was away, and Charmian tore open her letter, glancing first at the ending, her ears alert for the doctor's returning step. "Yours always, Jim," was what she read, and her heart lost some of its burden at the friendly words. Jim wasn't mad, anyway! The missive was stuffed into her pocket when John returned bearing a heavy ulster of his own.

"This will go over yours, and you'll be warm as toast. It's really a glorious winter day, Charmian, no wind and a clear sky. I left your grandmother in close confab with Lizzie Baker, so she's not lonely; and anyhow, she knew I was going to bring you home so she won't worry if you're a trifle late. There! You look like—"

He laughed as he buttoned the top button close under her chin, and Charmian asked: "Like poor, dear Miss Lizzie? Help me turn back these sleeves, John. Now I'm ready. Will you lock the door, please?"

He obeyed, and said as he tucked the robe carefully around her: "If you're tired, don't talk. Just rest your eyes on the landscape or close them if you prefer. I won't chatter."

Charmian smiled.

"That sounds like an echo, Jim Bennett said almost those same words one day last fall when he picked me up. I'd had some trouble with Deacon Purdie, and was all in. I

think the deacon was trying to get even with us about those beads, John, and used one of Luella's boys as the scapegoat. I was scared to death for fear I'd lose my job."

"And you never spoke of it at home! Why not?"

"It would have worried Grandma because she was responsible for that shrewd bargain. Besides, it wasn't necessary. Jim fixed it—somehow. Uncle George Knowles asked me what I'd do without Jim to fight my battles; but I suppose when we lose something we've always had and counted on, we just have to make the best of it, don't we?"

The doctor didn't answer this question; but after a moment he broke the silence by saying: "I didn't know that Mr. Knowles was your uncle, Charmian?"

"He's not, by law—only by love," she answered. "Jim and I have always called him Uncle George. Jim's father was his closest friend, you know; and as for me—well, he always wanted a daughter and never had one, so that explains it. He can't get over the fact that none of his boys fell for me!" she finished, looking up with a smile in her blue eyes.

"They must be morons, all three of 'em," responded the M.D. with becoming gallantry.

"Far from it! They're making names for themselves, those boys. I think I was too much like a sister to them—they'd always had me hanging 'round. Then, too, George Junior was a bit old; and Sid was too young; and Bill, Jim's chum, never had eyes for any one but Madge Merry. I wish you knew her, John. She's a wonder, and my best friend; but she hasn't been much use to me since she married Bill and went to live in Indianapolis! He's on a paper there, and doing splendidly."

"I seem to have learned some Wickfield history," smiled John Carter. "Here's where I stop. I'm likely to be a good half hour. Are you warm enough?"

"Snug as a bug in a rug, as Grandma says. Don't have me on your mind a minute."

"Easier said than done, I fear," he answered, his gray eyes smiling; and as he turned away the girl drew out her letter.

She read: "When I got back from a three weeks' trip hunting a fruit ranch, and found your letter stuffed into the slit in our front door (it must have been left there before the post office got word to forward mail). I swore a deep, dark, terrible, bloody oath that would have turned my mother's hair quite white if she had heard it. And after I read what you had to say to me, only my dyed-in-the-wool New England caution saved me from sending you a telegram that would have broken the bank at Monte Carlo—not caution at the expense, please understand; but you know yourself, Charmian, that a telegram in Wickfield is about as private a matter as the Grand Central Station is in New York. . . . Hence my caution. I wish . . ."

Charmian closed her eyes a moment. They had misted unexpectedly, and she wanted to wink the mist away and go on reading. The letter sounded so much like Jim! she told herself foolishly; and then laughed at the thought. How silly she'd been to worry about his silence! What an idiot to think he could be angry, or not care enough to write!

(To Be Continued.)

### Minard's Liniment gives quick relief.

Brazil is stopping all expenditures on public works.

Iceland's imports last year totaled nearly \$15,000,000.

Nothing can take the place of Enamel Ware. Identify it by the SMP label of quality.

## Her Three Children Troubled With Diarrhoea

Mrs. Leo Lapointe, Laurier, Man., writes:—"My three youngest children were very bad with diarrhoea. I tried all kinds of remedies, until a kind old lady told me to try Dr. Fowler's Extract of Wild Strawberry. I got a bottle right away and started giving it to them, and the next day the diarrhoea had stopped altogether. Now I will know what to do when any of my children are troubled that way again."

On the market for the past 85 years; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

### Authorities Are Puzzled

#### Condemned Man In Estonia Chose Of Canning Fruits and Recovers

Serge Vasilanko's stomach has literally saved his neck.

Sentenced to death, Vasilanko was given his choice between the poison cup and the noose, according to Estonian law. He chose the hemlock draught, in true Socratic fashion, drained it to its bitter dregs—and then refused to die. Languishing for some weeks in the hospital, his sturdy body battling the poison. Vasilanko finally rose from his bed a few days ago, fully alive.

The authorities were puzzled. There was no precedent for this. They had given the prescribed dose, but the man still lived. Courteously they offered Vasilanko the business end of a hangman's rope, but he sent regrets.

"I have complied with the law to the letter," he said. "I see no reason why the cremation should be repeated."

And until someone finds a reason to the contrary, Vasilanko lives a free man, with a stomach to be proud of.

### Warship Saves Woman's Life

#### Exciting Race Of Australian Warship "Anzac" In Teeth Of a Tornado

The exciting race of the Australian warship "Anzac" in the teeth of a tornado to save the life of a light-house keeper's wife has thrilled Australia.

When word was received that Florence Broderick, pretty 21-year-old wife of the lightkeeper of Gabo Island, was dying, the "Anzac" was ordered to sea with a surgeon. After being battered by the storm and swept from end to end by mountainous seas, the warship hove to off the barren island.

Bluejackets rowed the surgeon through the surf to the rocky shore and all that night he remained at the woman's bedside. In the morning he was able to report that the crisis had passed and the patient was out of danger.

A pleasant medicine for children is Mother Graves' Worm Exterminator, and it is excellent for driving worms from the system.

### Alberta Development Board

#### Southern Section Has a Fine Record Of Achievement

"The Alberta Development Board, southern section, enters the third year of its operation with a fine record of achievement," says the Calgary Herald, "which is no less remarkable and valuable because it cannot always be reckoned in exact dollars and cents benefit to the people of the communities which it serves." The Board's work covers a wide variety of activities, all designed to make known the attractions and industrial and other opportunities of the area covered.

Remove all callouses and enlargements from your stock with Douglas' Egyptian Liniment, a wonderful remedy.

### Argentina Wheat

#### Maintaining Lead Over United States In Shipments To Britain

Argentina is maintaining a steady lead over the United States in wheat shipments to Great Britain, England's import figures for that cereal recently made public revealed.

Shipments from Argentina reached their peak last year when the South American republic's total was 84,776,496 bushels against America's 41,563,124.

This year's figures to June 30 were, United States 12,204,152, Argentina 19,187,620, while in 1928 the figures were: Argentina, 45,545,360, and United States, 44,170,068.

For Blisters and Boils — Minard's Liniment.

### Little Helps For This Week.

"Let every man prove his own work, and then shall he have rejoicing in himself alone, and not in another."—Galatians vi. 4.

Nor serve we only when we gird Our hearts for special ministry; That creature best has ministered Which is what it was meant to be.

"I have desired," says King Alfred the Great, "to live worthily while I have lived, and after my life to leave the men that should be after me a remembrance in good works." How lofty the simple words are! Duty, not romantic achievement, is the aim of his life; not to do some "great thing," but the right things, the right thing being simply what God gave him to do. He seems to have felt in his inmost being that each man was sent into the world, not to live like some one else, but to do his own work and bear his own burden, precisely the one work which God has given him, and which can never be given to or done by another.

—Elizabeth Charles.

## Terribly Weak

### Strength Regained Through the Use of Dr. Williams' Pink Pills

"After the birth of my baby I was terribly weak," says Mrs. Jos. Morasse, Dupuy, Que., "and could not sleep or do my housework. I was despondent and was afraid I would be a constant invalid. I began taking Dr. Williams' Pink Pills, and before long my health was restored and I could do my housework without fatigue. Since then I have used these Pills on two other occasions with splendid result."

Dr. Williams' Pink Pills enrich and purify the blood. That is why better sleep, steady nerves, improved appetite and increased vigor follow their use—all these can be yours if you start treatment today. The Pills are sold by medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Construction Contracts

The month of June showed an increase of 16.7 per cent. in the value of construction contracts awarded throughout Canada, says "McLean Building Reports." Awards were greatest in the business buildings classification, 37.1 per cent. of all construction came in this group.

### Daughter Is Stronger Now

"My daughter Catherine is fifteen years old. She was very irregular, often sick at her stomach and had to stay in bed two or three days at a time. One of your booklets was sent to us by mail so I got her a bottle of Vegetable Compound. Catherine has been taking it regularly and she is gaining in weight and every way. I told the neighbors and four other girls are taking it with good results."—Mrs. Clarence Jenkinson, Box 14, Thornloe, Ontario.

Len Poxon broke the record of the Carbon golf course on Sunday, making the nine holes in 33.

Messrs. H. Irwin, L. B. Hart and J. Atkinson spent a couple of days in Drumheller this week in connection with the re-valuation of the Soldier Settlement land.

A well-known racing motorist is described as a man of parts. Spare ones.

GREETINGS TO GOLFERS

May you drive as straight as the arrow flies  
From the archer's hand through the distant blue  
With a rhythmic swing that's a joy to see  
And a matchless, well-timed follow through.  
May your mashie shot seek the place you plan  
And the gripping turf hold it firm and true;  
And your long iron sail in the face of the wind  
With never a wobble to trouble you.  
From the edge of the green, or the two-foot space,  
May the putt glide straight to the waiting hole.  
And the clear, sweet click in the little cup  
Bring thrills to the heart and joys to the soul.  
Just a perfect stroke and a perfect round  
And the joy of the golfer the whole match through  
Just a blissful year with the greatest game,  
This is my golfing wish to you.  
And whether we'er find the perfect stroke,  
Or the perfect round that we yearn to see,  
There's the joy of the seeker the whole glad way  
For expert, for dub, for you and for me.

"SILKS AND SADDLES" TO SHOW AT CARBON THEATRE

The following is a synopsis of the play "Silks and Saddles," which will show at the Carbon Theatre on Friday and Saturday of this week.

When Ellis, a clever jockey, refuses to "throw" any more horse races in which he rides for the Racing Combine, a crooked organization who made their money by giving the public false reports on the horses, the professional gamblers at the head of the Combine are forced to select a new jockey. Their choice is Johnny Spencer, a youthful jockey, working for Mrs. Calhoun in Virginia and training Lady Courageous, the most promising horse in her stable. By telling Spencer he will win great honors, by riding for them in New York, the Combine induce him to leave Mrs. Calhoun and her daughter Lucy, who is in love with him. Spencer is successful at first, while the gamblers are training him, but begins to dissipate under the clever tutelage of Sybil Morrissey, a beautiful blonde adventuress. When she promises to marry him if he will "throw" a big race the following day, Spencer, completely infatuated, carries out her wishes, but he holds his horse back in such an obvious way that his jockey license is revoked and he is disgraced. Friends get him a job

TENDERS FOR REPAIRS

Sealed Tenders will be received by the undersigned up to noon on the 1st day of August for the re-decorating of the Garrett School house. The work is specified as that of putting plaster-board on the ceiling, kalsomining the inside walls and staining all wood-work.

The lowest or any tender not necessarily accepted.

For further particulars apply to  
GORDON CADMAN,  
Secretary  
Box 143, Carbon.

TENDERS WANTED

Sealed Tenders will be received by the undersigned up to noon on Saturday, July 26th, for the scraping, smoothing and painting the floor of the Berkley School house No. 3124, S. W. Sec. 3-29-24, with. The paint will be furnished.

All tenders to be sent to  
T. CARDWELL, Secretary,  
Granger, Alta.

training Lady Courageous, when Mrs. Calhoun learns of it she fires him. The jockey scheduled to ride Lady Courageous in a big race, injures his foot. Lucy Calhoun induces officials of the Jockey Club to reinstate Spencer. He rides the greatest race of his life, coming in first and saving Mrs. Calhoun from loss of her fortune. He realizes that he loves Lucy, who has already forgiven him for his former disgrace.

SEND  
GARLAND  
BACK TO  
OTTAWA

GARLAND has given honest, consistent service as Member of Parliament for Bow River Constituency for 9 years.

GARLAND has voted "for the people" on every issue that has been presented to the Federal House.

GARLAND has followed a true course, unswayed by mercenary interest or offers of preferment by the Government.

GARLAND has championed the cause of Agriculture persistently and successfully in Parliament and out of it. Agriculture is a basic industry upon which depends the prosperity of the farmers, the villagers, the towns and the cities. He has loyally served them all.

GARLAND has worked effectively for the welfare of Bow River, Alberta and the Dominion of Canada.

Nine years of Active-service have ripened Garland's natural ability to a high degree of efficiency and maturity of judgement. Why take a chance?
